## TIPS TO LAUNCH YOUR VASAYO BUSINESS

**Attend Vasayo View Events.** Find a Vasayo View Open Event by visiting our Events Calendar at [Vasayo.com](https://www.vasayo.com) > Opportunity > Events Calendar. These meetings are a great place to bring your prospects to learn about the products, opportunity, and exciting Vasayo community!

**Review the Vasayo “5 Pillars” Presentation.** This company and product overview presentation can be found in the Vasayo App (PDF section) or in the VCloud Document Library.

**Upline.** Save your sponsor's contact information in your phone, along with the contact information of the person who sponsored them.

**Samples.** Having product on hand is an excellent way to share the good news about Vasayo products with others and build a customer base to generate volume. Product and product samples are available for purchase in your VCloud back office.

**“Place and Replace.”** For the serious prospect, give them a full-size bottle to try, and follow up with them in a few days. If they like the results, they can give you a bottle back after they sign up! Make sure you track who you place product with for easier follow-up.

Tip: Have enough product on hand to give some to each new Brand Partner. This helps to get them experiencing the benefits of the product while they're waiting for their first shipment to arrive. Once they receive their shipment, they can give you the product back.
