

How do you BulaFIT?

BulaFIT is the new fat loss program that is creating remarkable results by tapping into your body's natural ketogenic fat-burning mode. Being BulaFIT is simple:

BURN

Start your day with a BulaFIT Burn capsule. This potent combination of herbs and extracts will help you relieve cravings while providing you high energy and focus throughout your day.

SHAKE

Each day, replace one or two meals with KetoFUEL. This creamy, delicious shake is specially-formulated to help your body maintain the fat, protein and carbohydrate ratios needed to get into and stay in ketosis. Then, eat a ketogenic diet for your remaining meals. See the BulaFIT guide for details.

GO!

Increase your activity each day to help your body burn the fat! We suggest using Celebrity Trainer Owen McKibbin's Warrior Workout which can be done at home and provides fitness benefits that can rival those obtained from gyms.

Repeat this simple process for 30, 60 or 90 days to let BulaFIT transform your body and life!

BulaFIT Packs provide you the essentials to get started and include the BulaFIT Program Guide as well as Wakaya Perfection Nutrify products to expand and enhance your health.
