\$250
BONUS

* Ambassadors must be Paradise Qualified to receive any Pacesetter bonus. CQV and GQV requirements for all Pacesetter levels are calculated from standard product qualifying value (QV) and does not include promotional QV (ie Double QV, additional QV from product specials or promotional Paradise Qualified skus, etc). Qualifications for all ranks and Pacesetter statuses must be made within a single calendar month. The first full calendar month is the month after an Ambassador signs up. No more than 60% of GQV can come from any given leg. Jade maximum leg volume is 900 (60% of 1500). Sapphire maximum leg volume is 3,000 (60% of 5,000). Ambassadors may qualify at Jade or Sapphire ranks early than the Pacesetter qualification deadline. All Pacesetter bonuses are paid according to the Enroller Tree.
