WAKAYA  
PERFECTION™

Breeze Spa on Wakaya Island

## Welcome to Wakaya

In the Fijian tradition of natural purity, Wakaya Perfection's products honor its Polynesian roots and namesake island.

Wakaya is a remote island in the Fiji archipelago. Here the crystal-blue water and nutrient rich volcanic soil create the perfect environment for growth and healing. Some would say that paradise can only be found within Wakaya's tepid waters. We believe that paradise is found whenever you enjoy great health and a good life.

# Welcome to TaLei— your skin, perfected.

Your skin is a miracle. It protects you from the elements, connects you to the world, and expresses your thoughts and feelings to others. It does so day after day, year after year, without complaining. Taking good care of your skin is more than just an occasional luxury, it is an essential daily ritual.

TaLei Skincare has been crafted to nourish your skin with precious healing ingredients from nature. TaLei uses innovative formulas and sophisticated processes to preserve these ingredients without harsh chemicals. The result is radiant, delightful skin.

TaLei is created by skincare expert Jennifer Sanneman. Jennifer is the owner of an award-winning spa and has performed many spa services on models, celebrities and even royalty. She is passionate about creating natural, nourishing products that reveal your skin's true beauty.

*Reduction of the skin's elastin, collagen, and hyaluronic acid over time*

## Reverse the effects of time and stress

Your skin consists of three major elements to help it maintain a youthful, vibrant appearance. Unfortunately, as we age our skin's concentration of elastin, collagen, and hyaluronic acid is reduced which can cause sagging and wrinkled skin.

TaLei's innovative products are formulated with nourishing natural ingredients to encourage your body to fully support your skin. This, combined with increased hydration, helps your skin turn back the clock and regain a youthful, fresh appearance.

# Enriching skin therapy

## Nourish

## Hello, sunshine!

Skin experts and physicians agree, protecting yourself from the sun's harmful UV rays is critical for your skin's longterm health. Skin damaged by the sun not only can feel sunburnt, but it also starts to look dry, wrinkled, discolored and leathery. Of course, the most serious threat of this kind of damage is skin cancer. Remember to provide your skin extra protection any time you are in the sun!

Here are 5 tips to beat the sun:

- Always wear sunscreen, at least SPF 30, all day, every day.
- Wear protective clothing when outdoors for long periods of time.
- Avoid the sun in the middle of the day, when UV rays peak.
- Keep your skin healthy with proper care and moisture.
